

 Cut along the dotted lines to separate the scenario cards.

CYBER SAFETY SCENARIO CARDS

-  Protect
-  Respect
-  Report
-  Think

1 Strange Friend Request

You receive a friend request from someone you don't know but who has lots of friends in common.

What would you do?

How can you stay safe?

2 Mean Comments Online

Someone posts a mean comment about you in a class group chat.

What would you do?

How can you respond safely?

3 Suspicious Message

You get a message saying you've won a prize. It includes a link to claim it.

What would you do?

How can you check if it's real?

4 Sharing Personal Information

A classmate asks for your address and school name so they can "send you something".

What would you do?

What information is not safe to share?

5 Lost or Stolen Device

Your phone is missing from your bag or locker.

What would you do?

What steps can you take to protect your data?

6 Inappropriate Content

You see a post or image that makes you feel uncomfortable.

What would you do?

Who can you tell or report it to?

7 Pressured to Share

Someone keeps asking you to send a photo you're not comfortable sharing.

What would you do?

How can you set boundaries online?

8 Public Wi-Fi

You need to log in to your accounts while using public Wi-Fi at a café.

What would you do?

How can you keep your information secure?

9 Fake Profile

You discover a fake account is using your photos and name.

What would you do?

How can you report and get help?

10 Think Before you Post

You're about to post something when you're angry.

What would you do?

Why is it important to pause and think?

11 Unknown Download

A website asks you to download something to watch a video.

What would you do?

What are the risks of downloading files?

12 Supporting a Friend

A friend tells you they're being bullied online.

What would you do?

How can you support them safely?
