

PHOTOSYNTHESIS

EXIT TICKET SLIPS

Name: _____ Date: _____ Period: _____

1

What is photosynthesis?

Write a concise definition in your own words.

REFLECTION

One thing I learned today:

2

What are the reactants and products of photosynthesis?

List them.

REACTANTS

- _____
- _____

PRODUCTS

- _____
- _____

APPLICATION

How do plants use the products of photosynthesis?

3

Write and balance the chemical equation for photosynthesis.

THINKING

If there is no light, what happens to the rate of photosynthesis?

4

Identify TWO factors that affect the rate of photosynthesis.

1. _____
2. _____

EXPLAIN

Choose one factor and explain how it affects the rate.

5

Draw a labelled diagram of a leaf showing where photosynthesis takes place.

SELF-CHECK

Rate your understanding of photosynthesis today.

- Confident
- Developing
- Need more practice

One question I still have:
