

LOCAL COMMUNITY SCENARIO CARDS

1

Local Park Litter

You notice litter in the local park. What could be causing it and how could it be reduced?

2

Stormwater Runoff

After heavy rain, the stormwater drain looks dirty. Where might the water come from and what is it carrying?

3

Recycling at Home

Your household is not sure what can be recycled. How could your community improve recycling?

4

Water Use

Some people leave taps running. How could the community use water more wisely?

5

Getting Around

Many people drive to school or work. What are the environmental impacts and what are the alternatives?

6

Native Plants

A local area has few native plants. How could native plants be restored and why is this important?

7

Energy Use

The community wants to save energy. What are some ways to do this at home or at school?

8

Noise in the Community

Some places in the community are very noisy. What could be causing the noise and how could it be managed?

9

Food Waste

A lot of food is thrown away. How could the community reduce food waste?

10

Local Businesses

Local shops want to reduce their impact on the environment. What actions could they take?

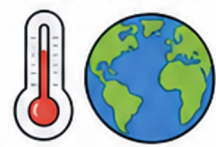

11

Community Ideas

People in the community have different ideas about a local issue. How could everyone work together to find solutions?

12

Climate Change

Our community is already feeling the effects of climate change. What impacts are local and what actions could help?

Cut along the dotted lines to use the cards in the classroom.
