

Subtraction Strategies

Exit Ticket Slips

Name: _____

Date: _____

SUBTRACTION STRATEGIES

COUNT BACK

Count back in ones or tens.

MAKE 10

Make 10 to subtract in parts.

PART-PART-WHOLE

Break the number into parts.

USE COMPENSATION

$$47 - 19$$

$$\rightarrow 47 - 20 = 27$$

$$\rightarrow 27 + 1 = 28$$

Adjust by 1, 10, or 100 to make it easier.

FRONT END ESTIMATION

$$47 - 19$$

$$\approx 50 - 20$$

$$= 30$$

Round to estimate, then subtract.

CUT APART THE SLIPS

1

Solve using the strategy that works best for you.

$$23 - 7 = \underline{\quad}$$

Strategy used: _____

My answer:

2

Solve using the strategy that works best for you.

$$36 - 18 = \underline{\quad}$$

Strategy used: _____

My answer:

3

Solve using the strategy that works best for you.

$$54 - 27 = \underline{\quad}$$

Strategy used: _____

My answer:

4

Solve using the strategy that works best for you.

$$64 - 29 = \underline{\quad}$$

Strategy used: _____

My answer:

5

Solve using the strategy that works best for you.

$$72 - 35 = \underline{\quad}$$

Strategy used: _____

My answer:

6

Solve using the strategy that works best for you.

$$81 - 46 = \underline{\quad}$$

Strategy used: _____

My answer:

7

Solve using the strategy that works best for you.

$$95 - 38 = \underline{\quad}$$

Strategy used: _____

My answer:

8

Solve using the strategy that works best for you.

$$103 - 67 = \underline{\quad}$$

Strategy used: _____

My answer:

REFLECTION

Which strategy helped you the most today?
