

PLACE VALUE

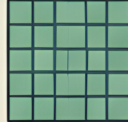

EVERY DIGIT HAS A PLACE AND A VALUE!

EXAMPLE NUMBER:

4,352,617

MILLIONS	HUNDRED THOUSANDS	TEN THOUSANDS	THOUSANDS	HUNDREDS	TENS	ONES
						
4	3	5	2	6	1	7
4 MILLION = 4,000,000	3 HUNDRED THOUSAND = 300,000	5 TEN THOUSAND = 50,000	2 THOUSAND = 2,000	6 HUNDRED = 600	1 TEN = 10	7 ONES = 7

The **position** of each digit tells us its value.
When we move one place to the left,
the value is 10 times greater.
